# Appendix: Managing Partner – Matt Katzer

- › Matt brings over 30 years of experience to KAMIND, having begun his career as an embedded software engineer responsible for the next generation of computer controlled vehicles for the consumer market. Since then he has built a solid track record working for General Motors and Intel in the Information Technology fields. At Intel he was responsible for the corporate conversion of the Oregon site to Windows Domain architecture.
- › Matt Created KAMIND in 1998, to supply solutions using Microsoft Technologies for small and medium size business. In addition to providing out sourced IT managed solutions, at KAMIND, Matt pursued the development of technology related inventions and holds 19 domestic and international patents in related areas. Matt holds a BSEE from University of Michigan and an Executive MBA from the University of Oregon.
